

Wamego Middle School & Wamego High School

Meal Account Balances

Each child participating in the USD320 meal program must maintain a positive balance in his/her meal account. When a parent/sponsor registers a student, they enter into an agreement with USD320 Food Service to ensure that the account balance remains positive.

Payments brought to school will be deposited into the student account the day it is received by Food Service. If a student has reduced their account to a zero balance; the student will lose the privilege of using their account to purchase ala carte items until payment is made.

Ala Carte Privileges

In addition to the school meals offered daily at breakfast and lunch, WMS and WHS offer a variety of ala carte food choices that may be purchased during meal times. Students must return a signed parental permission slip before ala carte purchases may be made from their lunch accounts. It is the family's responsibility to help students budget their money spent in addition to school meals.

Select one:

I do **NOT** give permission for my student (first and last name), _____, in grade level, _____, to purchase ala carte food items using their school meal account.

I give permission for my student (first and last name), _____, in grade level, _____, to purchase ala carte food items using their school meal account.

Your signature below confirms your agreement with the conditions outlined above.
